

Flora ID Northwest – Special NPSBC Offer!

Flora ID Northwest's computer plant keys contain complete descriptive information for all vascular plant species known to grow in British Columbia, the Pacific Northwest and Southwest Canada. They include both native and naturalized introduced species. The keys are interactive, allowing you to identify species in a few simple steps using almost any plant feature.

- Definitions of terms are provided, illustrated with line drawings
- Color photos are included for virtually all species
- Technical botanical terms are kept to a minimum
- Descriptions of the habitat and geographic range are provided
- Extensive references are included
- Help screens can guide the user throughout the program
- User's guide and tutorial included in the Help program

Note: PC format only

These CD-format keys are available through the NPSBC at the special discount price of CAN\$75 for the BC Edition, CAN\$150 for the Southwest Canada Edition and CAN\$150 for the Pacific Northwest Edition (compare with the regular prices of US\$100, \$200 and \$200 respectively). To order, detach and mail in the form below.
